# WATERWHEEL COMMUNITY SHED

The purpose of this catalog is to provide a sampling of the arts and crafts produced by the Waterwheel Community Shed. All items displayed have been crafted by our members and available for purchase at our Shed located at 2 Waterwheel Rd Bedfordale or at our Facebook Market Place.

The primary objective of our Community Shed is to provide a safe place for our members to meet and practice their skills in a productive and efficient manner. All items sold are reinvested in the Shed, whether it be in purchasing more materials or the acquisition and repair of our equipment.

Community Sheds (more commonly referred to as Men's Sheds), have as their principal objective of maintaining/improving the Health and Wellbeing of our members. This is achieved in a number of ways but primary it is being able to provide a safe and welcoming place to meet.

It matters not about a person's skills, former trade or profession. Many of our members attend the shed up to 3 times a week as a place to make new friend, learn new skills or a place to get away from their issues elsewhere. Some members attend to make or repair things while others just come and sit, watch TV, chat to fellow members or to access our computers to search the internet.

Waterwheel Community Shed is managed by a Management Board elected each year at the AGM, usually held in September. Many of our members have management skills which they offer as volunteers to ensure the continuing success of the Shed.

To participate in the Waterwheel Community Shed, membership is mandatory. Adults over the age of 18, male or female, can apply for membership. By being a member you have access to all our facilities and activities that are on offer.

We only ask that you respect each other, contribute where possible and uphold our ideals and the objectives contained in the Rules of Association.
